As a trust and estate attorney, my line of work focuses on a period of time that is surrounded by the desire to celebrate their family member's life, while also guiding the family through times of uncertainty. Knowing that such moments are sacred and vulnerable, I take great pride in being someone clients can lean on for support and turn to for guidance during these challenging and pivotal moments that will shape the rest of their lives.

Advocating and guiding Texas families during arguably the most difficult time of a client's life is Zach's primary focus. As a Trust & Estate attorney, Zach assists families with estate planning, probate, trust administration, and litigation related to these areas.

Zach believes in applying a tailored approach that is best suited for each family's needs, whether that approach requires creative estate and business planning, resolving disputes among the family through informal meetings or mediation, or zealously advocating on behalf of his clients in the courtroom. No matter the path, Zach is prepared to guide each family towards a secure future.
